What is Banana Hacks?

Banana Hacks is a free virtual hackathon dedicated to exploring the cutting edge of image AI, empowering students of all backgrounds with hands-on experience in computer vision, generative models, and synthetic data. We run weekend hackathons, workshops, and educational sessions to expose students to the field of image AI, inspire them to pursue technical careers, and empower them to produce innovative, long-term impactful projects.

Banana Hacks is a first-of-its-kind event in the US Northeast high school community: a hackathon built entirely around image AI. Every track, workshop, and prize category centers on the same theme. Participants will build projects around image classification, generative models, object detection, synthetic data, and the ethical dimensions of visual AI.

Our inaugural Banana Hacks will take place virtually on October 9 to 11, 2026. We are targeting 50 to 200 high school students from the US Northeast and beyond, and we are affiliated with Hack Club and seeking MLH membership for our inaugural event.

Why sponsor Banana Hacks?

The Banana Hacks team is dedicated to providing top-notch educational resources and experiences to a diverse array of high school students. By choosing to sponsor Banana Hacks, you will have the opportunity to:

- Inspire, educate, and empower passionate young innovators working in the exact space your company operates in
- Recruit talented students with skills in image AI, computer vision, generative models, and machine learning
- Promote and advance your company's brand, ideas, and technologies through a visible, mission-aligned hackathon platform

At Banana Hacks, participants will be strongly encouraged to focus on long-term research and impact objectives and to think deeply and critically about their problem-solving processes. This will ensure that our hackers develop the critical thinking, research skills, and big-picture vision necessary to succeed in rigorous tech-based careers.

Your company will have left an indelible imprint on the future of image AI.

Where will your money go?

Your money will go directly toward paying for prizes, swag, and minor operational expenses for Banana Hacks to create the best possible experiences for students, mentors, and sponsors. Additionally, your money will help support workshops and potential additional educational projects to come. Banana Hacks is fiscally sponsored by Hack Club Bank (HCB), a 501(c)(3) registered nonprofit organization. All donations and sponsorships made to HCB on behalf of Banana Hacks are tax-deductible.

Interested in sponsoring?

Contact us at team@bananahacks.tech! All sponsorship tiers are negotiable, and we are happy to discuss a custom sponsorship tier. We are also happy to discuss in-kind sponsorships such as API credits, prizes, and software access.
